SECURITY INFORMATION

### RECENT TACHEN OPERATIONS

Following is a chronology of events of the past six weeks in the Tachen area. The seizure of many of the smaller islands in the area and the build-up of Chinese Communist troops there, suggest that the neighboring islands are being used as a staging area for the Tachen operation.

Communist forces in the immediate area are believed to be strong enough to capture the Tachens, garrisoned by 7400 Nationalists, whenever sufficient transportation is available. Loss of the Tachens would have little effect on the survival potential of the Chinese Nationalists government on Formosa.
